Work Experience:- Since 18-03-09, I am working at Pipavav Ship Yard Limited – Pipavav in a Production Department (Blasting & Painting) in shipbuilding division.

Responsibilities:

Responsible for controlling all aspects of the coating /Painting of the new building vessels. I like to join a busy ship building project and take responsibility for inspecting Blasting standard and Painting DFT/quality and thus control the quality of the vessels paint and coatings.

- ^ Ensure adherence to design drawing and coatings specification requirements related directly with product and personnel qualification, surface preparation, product application, testing of work, coatings application and workmanship monitoring, and approval of field records, documents, registers and check sheets for project requirement acceptance.
- ^ Develop and review coating procedures and inspection and test plans.

- ^ Ensure verification and contractor inspection and coatings manufacturer representative inspection of applied corrosion protection and fireproofing systems – inclusive of protective coatings, thermal spray coatings.
- ^ Verify contractor’s compliance with design drawings, specifications, procedures and inspection and test plans.
- ^ Review coatings specification and identify omissions and clarifications.
- ^ Test and approve fabricator’s blasters, paint applicators and inspectors in accordance with Shell specifications.
- ^ Formulate quality control training programs as required.
- ^ Ensure yard compile full and accurate reports of all coating activities.
- ^ Track the status and movement of work pieces for coatings readiness and coatings completion.
- ^ Resolve contractor’s technical queries with concurrence from structural and engineering site leads.
- ^ Understand the project schedule and be proactive in assessing where activities could impact the planned progress advising the Project manager/Technical manager.
- ^ Perform contractor and subcontractor quality and safety qualification audits with recommendation for approval.
- ^ Familiarize self with design drawings, specifications, applicable codes, standards and practices and project quality plan.
- ^ Actively support coordination / progress meeting with agenda to facilitate meeting execution.
- ^ Oversee the preparation, tracking and completion of contractor’s coatings punch list.
- ^ Document and communicate Lessons Learned in all above responsibilities.
- ^ Ensure all coating materials are stored in accordance with specifications & procedures (MSDS is displayed where necessary) and all waste products are disposed of safely & correctly.
