Recommendation Letter

This letter of recommendation is for my student, Ms. Nilam Ghori who has shown an eagerness to grow, evolve and excel in her chosen field. She has completed her bachelor's degree in Dental Surgery with first class grades. But, I know of her potential to do much better. This confidence comes from having observed her consistently improved grades and her active participation both within and outside of class. Through all of this, she displayed her excellent diagnostic skills and sound knowledge of clinical practices and protocols.

I am aware about, Nilam has been an integral part of various projects on diverse topics. She has successfully executed Caries Prevention and Resective Osseous Surgery. Her ability to delve deeper and explore core of subject was evident during her extensive research. To dwell on a subject and provide her innovative insights is a habit with her and was evident in her work. As an effective communicator, she was able to effectively put across her ideas and viewpoints coherently and with clarity.

Her research potential was evident in terms of assimilating, compiling and analyzing relevant information and data to develop her work. I have observed this in her first hand while furnishing technical presentation on 'Exodontia' which covered current advances in field of Oral and Maxillofacial Surgery.

I have taught her Dental Material in second year and Prosthodontics and crown & bridge in final year. As an integral part of her academic curriculum, Nilam has undertaken ten months rotational training as an Intern at our college and two months at Civil Hospital, Gandhinagar. She achieved practical hands on learning at diagnosing patients with efficient handling. She is adept at managing complete dentures, partial dentures and fixed crown.

Among her extra-curricular activities, she has undertaken Dental Fluorosis survey undertaken in a school and has imparted education on public awareness at a medical Centre. Being an effective communicator, she was able to convey crux of subject using simple and lucid language.

Nilam is passionate about her chosen field and is willing to go that extra mile and do what it takes to excel in her academic endeavors. I am certain she will continue to valuably contribute within research and development. Thus, she has my strong recommendation for admission for mater's program at your esteemed university.

Professor & Head (Department of Periodontia)

Government Dental College & Hospital, Ahmedabad 380016, Gujarat India

It is with great enthusiasm that I write a letter of recommendation for Radhika Chavada who was an undergraduate student at Government Dental College & Hospital Ahmedabad. She was a hard-working, energetic, and intelligent student. She has shown a high level of dexterity, critical thinking, and self-motivation throughout the time of her under-graduation.

She was always eager and curious in learning dentistry. She showed an active interest in the seminars and lectures and always asked relevant questions which bring forth her natural curiosity about learning her subject. Radhika is a very well-mannered and self-disciplined person. She has shown an extremely high level of dedication, objectivity, and self-motivation throughout the time I have known her. She used to take all criticism positively and was always keen to learn from her mistakes.

Apart from her studies, Radhika is very caring and skillful while dealing with and treating patients. She is excellent in the diagnosis and treatment planning of patients. She was also able to manage multiple tasks at a time. Her strong communication skills make her able to perform good interactions with patients. In addition to her high social ability, Radhika is also a very promising dentist.

I would expect her to bring these same qualities of character and attitude along with her wherever she goes: openness to new places, people, culture, and customs, a keen intelligence, irrepressible curiosity, and an ability to deal with people of all ages and conditions. These qualities, combined with her toughness of character, will enable her to understand and adjust to others as well as in a different and new environment.

She will be a highly-achieving student in your dental school. I feel confident that she will continue to succeed in her future and I would recommend her wholeheartedly for further studies at your university.

Sincerely,

Dr. Neeta V. Bhavsar

GOVT. DENTAL COLLEGE AND HOSPITAL AHMEDABAD

I, Dr. Neeta Bhavsar, Professor & Head of Department of Periodontia, at Government Dental College & Hospital, Ahmedabad, pen down my recommendation for Dr. Dyutee Dawda. Government Dental College and Hospital's system of enrolling scholars through a highly competitive entrance examination gives us the opportunity to hone the skills of talented students like Dyutee. I am delighted to refer her to your university for her application to the 2 year International Dentist Program.

I taught Dyutee during her third and final years as an undergraduate student. She was a focused, mature, and result oriented individual with a strong conviction of what she wants out of life.

Dyutee was and is a hardworking and focussed individual whose drive for continuous improvement is evident in her academic performance throughout her four year study. Her theoretical and practical knowledge about the subject, innate talent, and organizational skills aided her in being consistently ranked in the top 5% of the class. She is particularly excellent at clinical work in Periodontics & Implantology. During her internship at my department from September to October, 2013, she was one of the few interns to gain expertise in flap surgery and bone grafting in a short span of time.

I also believe that Dyutee is a flexible individual with the talent to adapt to different situations and people. Her pleasant personality, strong character, fluency of expressing thoughts in speech and writing, patience to listen and understand different viewpoints, has been an asset to the patients in our clinics. She was a compassionate intern, who went out of her way to help the geriatric patients in our clinics. It is perhaps their blessings combined with her hard work that she has come so far in the field of Dentistry.

Her ability to think independently and collaborate with peers, supervisors, and subordinates alike, was well received during her successful tenure as the Student Representative of her batch. She has organized many cultural festivals in the college, and other social activities on and off the campus. I consider her performance in this role to be laudable.

It is refreshing to see Dyutee go that extra mile to consummate her experience and learning. This is evidenced by her successfully passing the National Board of Dental Examination Parts I & II (USA). She wants to pursue DDS because it will widen her vision and sharpen her skills to undertake Advanced standing Dental Program in the US.

Lastly, Dyutee's goal oriented approach to her work has helped her stay focused under pressure, and excel in challenging situations by adopting creative and innovative methods. Her enrolment at your university can prove to be a guide and help in future successful endeavours for her.

I am happy to provide any additional information if required. Please email me on dr.neetabhavsar@gmail.com.

Yours sincerely,

Neeta Bhavsar

Recommendation Letter

To whom so ever it may concern,

Date: March 15, 2021

I am pleased to write a letter to recommend Pavna Shah. I am a Professor and Head of the Department of Periodontology at Government Dental College and Hospital, Ahmedabad, India. Pavna was my student at the school, and I have been in close association with her since she started her clinical rotation at the Periodontia department and later in her career as a dentist.

Pavna has demonstrated her academic excellence beginning from the first year of the dental program as she was one of the top students in her class. She started clinical rotation at the Periodontia department from the third year. During rotation, she conducted around 50 scaling and root planing procedures on patients including taking a thorough history, performing complete extraoral and intraoral examination, preparing a periodontal chart, and taking dental indices. She was able to perform them flawlessly and quickly gained the skills. Apart from learning practical skills and patient interaction, Pavna was interested in research. She has worked on a project and has prepared a poster on the topic of 'Gingival recession' during the third year. She also has presented a thorough review on 'Periodontal flap surgery' during the final year. She had performed exceptionally well during the end of the term assessments and consistently maintained good grades.

During the mandatory internship, she examined and diagnosed patients with gingival and periodontal diseases. She counseled patients about the importance of oral hygiene and have educated them regarding brushing and flossing techniques. Moreover, she was involved in treating patients with scaling, root planing, and curettage procedures using hand instrumentation, and ultrasonic device. She also assisted resident dentists in periodontal surgery and bone grafting procedures.

I remember her as one of a few students I have taught, who genuinely interested and curious about the subject and always eager to learn new things. She was very empathetic towards underprivileged patients coming to our hospital and frequently used to make an extra effort to address their concerns and always motivated them to maintain proper oral hygiene. She has kept frequent communication after graduation, and I can say that she has made considerable progress in her career. Her approach towards evidence-based dentistry from the very beginning of her career made her an accomplished dentist. Keeping abreast with the latest updates, newer advancements in the field and technology, and successfully integrate it into her routine practice. she has made remarkable progress in her career.

Overall, I regard Pavna as a reliable, compassionate, and mature individual. I strongly recommend her for admission into the dental program at your university.

Yours Sincerely,

Dr. Neeta V. Bhavsar, M.D.S.

LETTER OF RECOMMENDATION

Date: 8th March, 2021

To Whom So Ever It May Concern

I am delighted to write this letter of recommendation for Dr. Dhruvishaben Patel who has completed her Bachelor's degree in Dental Surgery from Government Dental College and Hospital, where I am Head of Periodontia Department. It has been a pleasure having her in my class of Periodontia in the last three years of her course including internship period.

As the Head of Department and Professor here, I have seen her grow from a fresher to a matured doctor, who has distinguished herself as an outstanding clinician here. Her competence, empathy and principles have been exemplary during this tenure. In providing a broad spectrum of assessment and treatment, she has proven her ability to understand and work on complex health care situations. Her skill in history-taking, diagnosing, and treating has been remarkable.

Looking at her overall performance in my class, I can say that Dhruvishaben is flexible, practical and at the same time, caring and collaborative. As a student, she is particularly gifted with identifying patient's needs and making them conscious of their health issues. And thus, she is respected and admired by patients. I have also seen in her the characteristics of being compassionate and caring. She not just looks after the patients but also understands the anxiety of the family and is often found explaining the condition of the patient and ramifications of treatment to the families.

I believe Dhruvishaben will be a great candidate for a Master's program. The program offered at your school, is ideally suited to her needs and talents, hence given a chance she will perform and excel. I assure you, she will be coming to you with the qualities like genuineness, warmth, empathy and reliability. Additionally, she would come with an enthusiasm for learning as well as a resolute desire to understand new theories and ideas. Hence, I strongly urge you to carefully consider her for admission to your esteemed university.

Sincerely,

LETTER OF RECOMMENDATION

Date: 4th March, 2021

To Whom It May Concern

I am delighted to write this letter of recommendation for Dr. Megha Dobhal who has completed her Bachelor's degree in Dental Surgery from Government Dental College and Hospital, where I am Head of Periodontia Department. It has been a pleasure having her in my class of Periodontia in the last three years of her course including internship period.

As the Head of Department and Professor here, I have seen her grow from a fresher to a matured doctor, who has distinguished herself as an outstanding clinician here. Her competence, empathy and principles have been exemplary during this tenure. In providing a broad spectrum of assessment and treatment, she has proven her ability to understand and work on complex health care situations. Her skill in history-taking, diagnosing, and treating has been remarkable.

Looking at her overall performance in my class, I can say that Megha is flexible, practical and at the same time, caring and collaborative. As a student, she is particularly gifted with identifying patient's needs and making them conscious of their health issues. And thus, she is respected and admired by patients. I have also seen in her the characteristics of being compassionate and caring. She not just looks after the patients but also understands the anxiety of the family and is often found explaining the condition of the patient and ramifications of treatment to the families.

I believe Megha will be a great candidate for a Master's program. The program offered at your school, is ideally suited to her needs and talents, hence given a chance she will perform and excel. I assure you, she will be coming to you with the qualities like genuineness, warmth, empathy and reliability. Additionally, she would come with an enthusiasm for learning as well as a resolute desire to understand new theories and ideas. Hence, I strongly urge you to carefully consider her for admission to your esteemed university.

Department of Periodontia,
Government Dental College & Hospital,
Ahmedabad

Government Dental College & Hospital Ahmedabad.

July 14, 2019,

Dear reviewer,

I am delighted to be called upon as a reference for Dr. Presha Patel who was my student at Government Dental College and Hospital, Ahmedabad. I have taught her Prosthodontia and moreover, I was able to supervise her work directly over the last 3 years of her dental school. When she expressed her desire to go for advanced studies in the United States, I am equally delighted to assist her in this process by writing this recommendation to your esteemed university.

As her mentor, I have seen her evolving her understanding of Dentistry while obtaining clinical dental experience. She can meticulously perform various procedures including the construction of full and partial dentures and fabrications of crown and bridges. She is very clean and precise when explaining the proper care for denture and patiently answered all questions thoroughly. She also has a flair of keeping herself abreast with the latest techniques. Her approach to geriatric patients has always been exemplary. She demonstrated special talent in the practice by calming their nerves and feeling satisfied with the prosthesis. The compassion that she shows while dealing with the patients has earned her the respect and love of all.

Presha is quite ambitious and career-driven. She is very interactive in the class and participates in discussions with cogency and natural ease. She is a person whose dedication is not restricted to the course curriculum. I have always seen her actively engaged in many extracurricular activities. Let it be sports or organizing cultural events at the college. She is a dynamic student with a pleasing personality.

Considering her diligence and intelligence, I strongly believe that she will scale the highest peaks in her field of interest. I am confident that she will continue to demonstrate the same dedication and sincerity that she showed to our institute. Hence, I highly recommend Presha without any hesitation for admission into your dental program. I wish her all the best for her future endeavors. Please feel free to contact me if you have any concerns.

LETTER OF RECOMMENDATION
TO WHOMSOEVER IT MAY CONCERN

It is my great pleasure to write this letter of recommendation to study in abroad for truly deserving student Dr. Vishruti Dhirubhai Chaudhari. She had been excellent student of this college. As an Associate professor of Government Dental College and Hospital, Ahmedabad, I have witnessed the performance of my Graduates.

Dr. Vishruti Dhirubhai Chaudhari joined the college in Aug 2005 and graduated in July 2012. She has completed her internship in 2013. As a student she was punctual and hard working. She has very good communication skill with patients and her other colleagues. She is well disciplined. She bears good character and conduct.

There is so much potential in her, if she is given opportunity to study abroad, she would be given more room to discover her abilities. I highly recommend Dr Vishruti Dhirubhai Chaudhari in your University study program, she will be a highly assets to your institution.

LETTER OF RECOMMENDATION
TO WHOMSOEVER IT MAY CONCERN

Dear Reviewer,

I am elated and proud to provide recommendation for Dr. Pooja Gajjar. She was my student at Government Dental College and Hospital, Ahmedabad. I was teaching her prosthodontics and also was mentoring her clinical work directly for 3 years during her dental school. She expressed her interest in advanced standing dentistry program to me and I am equally delighted to assist her in this process by providing my recommendation to your prestigious university. I hope my opinion about her will help you evaluate her application and consider her as a potential candidate.

Pooja has shown very explicit prosthodontics work using her practical knowledge and dexterity. She demonstrated excellence in her clinical procedures such as impression taking, teeth setting and denture processing of both complete and partial dentures. She has expressed her opinions very thoroughly and critically during group discussions and presentations related to maxillofacial prosthesis. She did not hold herself back in assisting me or my colleagues during complex prosthodontic procedures. She performed with excellence in completing her competencies for crowns, fixed and removable partial dentures as well. Her approach to patients in explaining and conducting treatments was very professional and exemplary. The compassion she showed while treating her patients earned her great trust and respect.

Apart from her clinical skills and knowledge, she is very respectful and polite in her behavior towards faculty members and her peers. She is very interactive and her dedication is not limited to curriculum. She has always taken part actively in organizing cultural events at college. She emerges as a very gratifying and zestful personality. I am very affirm in recommending Dr. Pooja Gajjar, considering her maturity, academic knowledge and diligence. I am assertive that she will demonstrate the same sincerity and commitment that she showed at our college of dentistry. I highly recommend her without any reservation for admission into your prestigious dental program. Please feel free to contact me if you have any concerns.

Sincerely,

LETTER OF RECOMMENDATION
TO WHOMSOEVER IT MAY CONCERN

Dear Admissions Committee,

I have known Dr. Radha Gandhi for five years during her study at GDCH. My first interaction with her was when she was my student in the pre-clinical lab of prosthodontia. Her carving abilities were precise in pre-fabrication of denture framework. Radha always came prepared in the clinics and had exhibited excellent judgment skills. She was a great team player, always willing to help others and engage in discussions. She demonstrated that she comprehended the complexities of dental surgery and always gave sound answers in the oral exams.

Radha has received proper training in pre-clinical and clinical work and has practiced all types of clinical and laboratory steps. During her clinical rotations, Radha has demonstrated excellent clinical skills by performing 10 cases of complete denture and 5 cases of full cast crowns under my guidance. Most students act as passive assistants in the treatment procedures while faculty takes the major responsibility. However, with Radha, she has always tried to navigate her way independently with my little supervision at the end. She took active participation with residents in diagnosis and treatment planning of prosthodontics treatments. She assisted me in my cases of implant placements done for full mouth rehabilitation, and depicted interest in learning casting techniques. Dr. Radha was very humble in treating old patients who came for full mouth dentures and was playful with young patients with special needs. These characteristics help blossom the best qualities needed in a dentist.

Radha is a bright student, who always ranked among the top five in her class. Undoubtedly, she will impress you if she is admitted to the International dental Program at your school. I often encouraged her to pursue a master's degree in at our institution. However, she was determined to pursue the best dental programs internationally and has accepted the challenges that come with studying abroad. Her enthusiasm for serving patients and academic excellence will make her a great candidate for your institution. I am giving my highest recommendation to her. I would be happy to assist you if u have any further questions.

LETTER OF RECOMMENDATION
TO WHOMSOEVER IT MAY CONCERN

This letter of recommendation is for my student, Riddhi Patel, who has shown an eagerness to grow and evolve in dentistry by applying for further education in the United States. I was her instructor for prosthodontics and supervised her work directly for over 3 years during her undergraduate school.

As her mentor, I have seen her evolving her understanding of Dentistry by obtaining clinical dental experience. She can meticulously perform various procedures including construction of full and partial dentures and fabrication of crowns and bridges. She was very thoughtful in her approach towards patients. She never rushed into treatments before deliberating all relevant patient medical history and clinical findings. She is also a very good communicator. The way she explained the treatments to patients always impressed me. The compassion with which she treated patients earned her love and respect from all.

Riddhi is quite ambitious and career driven and I can attest to her academic abilities as well. She was always very attentive and interactive in the class and participated in simulating discussions. She was one of those students who always wanted to go above and beyond which is also why she was also very active in extracurricular activities. I could also see her passion towards dentistry and her willingness to go the extra mile to do what it takes to excel in her academic and clinical endeavors.

Given Riddhi's capabilities and passion, I believe she will be a good fit for your program. Her personality, academic performance, and her dedication towards patients makes her a great candidate for your institution and a great dentist for the future. I strongly support her application and will be more than happy to provide any more information as needed.

LETTER OF RECOMMENDATION

I am extremely pleased to write this letter of recommendation for **Dr. Rutaben Jasoliya** D/o **Mr. Ranchhodbhai Jasoliya**, whom I know for 5 years as she completed her Bachelor's degree in Dental Surgery at Government Dental College and Hospital, Ahmedabad. She is one of the most interactive, sincere and dedicated students of our College.

She was studious, disciplined, and regular throughout her dental studies in this college and was seen actively participating during the lectures in order to clear out any queries that she would bear in her mind. She is patient and willing to assist her team wherever and whenever possible and has good interpersonal skills in diverse group settings and has continually displayed admirable skills.

She not only gained success in the academic field but also indulged in various extracurricular activities such as attending conference held by the IDA, and various CDE programs, and was also involved in various sport events during the cultural festival in the college.

It is with great pleasure that I recommend **Dr. Rutaben Jasoliya** for further study abroad. I hope that you will seriously consider her qualifications and afford her the opportunity for further study. I will be happy to answer any questions you may have.

LETTER OF RECOMMENDATION

I am writing this recommendation letter for Dr. Divya Jani D/o Mr. Vajeshankarbhai Jani, whom I know for 5 years as she completed her Bachelor's degree in Dental Surgery at Government Dental College and Hospital Ahmedabad. She showed her dedication towards every activity including clinical and preclinical practice.

She excelled in academics all through her training and was a hardworking and sincere student. I have observed Dr. Divya Jani approaching her responsibilities with a lot of interest and vivaciousness. I believe she had a good skills and experience which will lead to success in her career path. I feel that endeavor to pursue further education and training internationally is the right career path for an excellent student like her, considering her consistency coupled with her pleasing demeanor and initiative.

It is with great pleasure that I recommend Dr. Divya Jani for further study abroad. I hope that you will seriously consider her qualifications and afford her the opportunity to make her career brighter.

Letter of Recommendation

I am pleased to write a letter of recommendation for Dr. Chaitaliben Gandhi as a part of her application to dental school in the United States. Chaitaliben was my student in the Oral & Maxillofacial surgery department during the 2012-2014 academic year. As her teacher, I had an opportunity to observe her contribution and collaboration in the class and to evaluate her knowledge of the subject matter.

I have observed that she was a diligent and conscientious student. She possessed wonderful dexterity and was able to observe and respond to changes in the functional surrounding almost instantly. She accomplished her tasks in a courteous and timely manner. She had excellent extraction skills and performed on simple as well as complex cases meticulously. She demonstrated a strong fundamental understanding of anatomical structures and lesions that very few students had at her level. She also demonstrated a special talent for working with elderly patients in the practice, calming their nerves and making them feel relaxed.

Chaitaliben has been an excellent personable young lady who seems equally comfortable with her peers, as well as faculty members. Her commitment to her craft and hard work in overall pursuing her goals will definitely serve her well in your dental school. I recommend her to you without any reservations.

Sincerely,

Dr. Utsav Bhatt

LETTER OF RECOMMENDATION

It gives me immense pleasure to recommend Dr Maitri Shah who is planning to pursue further studies at your university. I have known Maitri since her third year of Under Graduation. I have taught her Orthodontics and have supervised her work directly over a period of 3 years. During this tenure, I gauged her natural abilities and found that she has an admirable understanding of core concepts and their application during procedures.

Maitri is a perfect blend of intellect and diligence which is reflected by her excellent academic records. She is ambitious and career driven. She is very interactive in class and participates in discussions with cogency and natural ease. Orthodontics is a subject that requires patience and a creative skill and Maitri possesses both. Her pleasant manners and knack in communicating her ideas effectively have helped her establish an excellent rapport with her fellow classmates, seniors and faculty.

Maitri is a person whose dedication is not limited to academics. She has always been an active participant in various college events, be it sports, cultural activities, poster making competitions or conferences. She is a dynamic student with a pleasing personality.

Considering her motivation, perseverance and intelligence, I strongly believe that she will scale the highest peaks in her field of interest. I am sure she will continue to demonstrate the same dedication and sincerity that she has showed to our institute. Hence, I strongly recommend Maitri for the Graduate program at your university. I wish her good luck for her future. Please feel free to contact me for further information.

With Regards,

Dr. Rahul Trivedi
