### REPORT OF THE EVENT

Dr. Phillip Schneider is one of the eminent trainer and has over 40 years of clinical experience. He is known for his worldwide lecturing activities and has conducted several sessions and had enlightened several students with their knowledge. He is a consultant for Ivoclar Vivadent AG headquartered in Schaan/Liechtenstein.

He has conducted a Live Demonstration on Preparation of Class II Cavities followed by restoration with CENTION N, that was attended by the 15 staff members 40 Interns & 17 PG Students of the Department of Conservative Dentistry & Endodontics

Cention N offers tooth-coloured esthetics together with high flexural strength. Patented alkaline filler increases the release of hydroxide ions to regulate the pH value during acid attacks. As a result, demineralization can be prevented. Moreover, the release of large numbers of fluoride and calcium ions forms a sound basis for the remineralization of dental enamel.

The ICDE program conducted by Phillip Schneider has enlightened all participants with knowledge about application of this material
