REPORT OF THE EVENT

Dr. Phillip Schneider is one of the eminent trainer and has over 40 years of clinical experience. He is known for his worldwide lecturing activities and has conducted several sessions and had enlightened several students with their knowledge. He is a consultant for Ivoclar Vivadent AG headquartered in Schaan/Liechtenstein.

He has conducted a Live Demonstration on Preparation of Class II Cavities followed by restoration with CENTION N, that was attended by the 15 staff members 40 Interns & 17 PG Students of the Department of Conservative Dentistry & Endodontics

Cention N offers tooth-coloured esthetics together with high flexural strength. Patented alkaline filler increases the release of hydroxide ions to regulate the pH value during acid attacks. As a result, demineralization can be prevented. Moreover, the release of large numbers of fluoride and calcium ions forms a sound basis for the remineralization of dental enamel.

The ICDE program conducted by Phillip Schneider has enlightened all participants with knowledge about application of this material

REPORT OF THE EVENT

Facial esthetic procedures make an important niche in the scope of maxillofacial surgery-hair transplant being the most common procedure. Case selection, treatment planning, surgical armamentarium and basic concepts are necessary to successfully practice such procedures.

The CDE programme conducted by Dr. ShyamSheth enlightened all participants with knowledge and concepts of hair transplant.

Dr. ShyamSheth is an eminent instructor in Gujarat for hair transplant and has conducted several lectures for the same.

Report of the program:

Assessment patterns is a very important topic and it was a privilege to have a CDE on this topic by Dr. Janki Shah, Head in charge, Dept of Public health dentistry. The CDE very well explained the importance of unbiased assessment patterns. Use of OSCE and OSPE were explained. Categorizing of slow and advance learners and strategies to improve them further was briefed. Outline about conducting MCQs based test after lectures, feedback after term ends, individual assessment of student's performance clinically and academically, guidance by mentors were some of the key highlights.

Report of the event :

On 4th July 2019, The NABH Training -ACCESS, ASSESSMET AND CONTINUITY OF CARE(AAC) was given wherein it was explained via a lecture by DR. Piyush Limdiwala, Assistant Professor, Department of Oral Medicine and Radiology, that the organization defines its scope of service provision and provides information to its patients about the services available. Once the patient is in the organization, he is registered and assessed, whether in OPD, IPD Or Emergency. Investigations are carried out in safe environment and patient is refereed to concerned department. It explained the key safety and process elements that the organization should meet, for patient care within the hospital till discharge/end of treatment.

Report of event:

On 5th July 2019, The NABH TRAINING: PATIENT RIGHTS AND EDUCATION(PRE) was given by Dr. Sneha Rao, Tutor, Dept of Prosthodontics, wherein it was explained that the organisation defines, protects and promotes the patient and family's rights and responsibilities. The staff should be aware of these rights and trained to protect them. Patients are informed of their rights and educated about their responsibilities at the time of entering the organisation. The expected costs of treatment and care are explained clearly to the patient and/or family. Patients are educated about the mechanisms available for addressing grievances. Patients and families have a right to get information and education about their healthcare needs in a language and manner that is understood by them. Informed consent is obtained from the patient or family for specified procedures/care. The key components of information shall include risks, benefits and alternatives. The organisation should develop effective patient-centred communication.
